During the year, 309 deaths occurred from fever, 146 from cholera, 10 from small pox and the rest *i. e.* 149 from other causes. The increase in the total number of deaths is due to the prevalence of cholera during the year.

61. Table III.

Operation by whom performed.	Number of persons vaccinated in 1891-92.	Number of persons vaccinated in 1892 93.	Result.			
			Successful.		Unsuccessful.	
			1891–92	1892-93	1891–92	1892–93
Abdul Khudooskhan ...	1004	744	971	655	33	89

62. During the year 592 primary vaccinations and 152 revaccinations were performed as against 839 and 165 in the previous year. The total cost to the State of entertaining establishment under this head accounts to rupees 280-6-0. The great falling-off in the total number of operations and increase in the number of unsuccessful cases, are both discreditable to the vaccinator. It would be well if he is transferred from this State, as I have already recommended in a separate communication.

63. The sanitary condition of the State is good.

Chapter VII–Instruction.

64. There are 8 Government schools in the State, one Anglo Vernacular boys school teaching English up to the 3rd standard, one Persian school, five boys Vernacular schools and one girls school all teaching the four Vernacular standards. The total expenditure incurred during the year on account of education was rupees 2057-2-9. The Inspecting officers of the Educational Department have formed favorable opinions regarding the condition of all the schools except the schools at Tondur and Hotanhalli.

No.	Description of schools.	No. of pupils on the roll on 31st March 1892.	No. of pupils on the roll on 31st March 1893.	Daily average attendance.
1	Savanur 2nd Grade A. V. school ...	165	167	110.6
2	Do Girls school ...	44	45	30
3	Do Branch school ...	25	20	15.2
4	Do Persian school ...	60	90	67
5	School at Kobnur ...	51	49	28.3
6	Do at Tondur ...	22	19	13
7	Do at Hotanhalli ...	27	20	9.8
8	Do at Siddapur ...	22	23	19.4
		416	433	291.23

65. There is a slight increase over last year in the number of pupils attending the schools but the daily average attendance has fallen off to a certain extent. Three scholarships of rupees 2 each have been continued.

66. During the year under report there have been 9 indigenous schools as against 11 in the previous year. Of these 9 schools, one teaches Hindustani and rest Kanarese. The total average attendance was 124 as against 281 in the year preceding. The indigenous school at Madapur was visited by the Deputy Educational Inspector and on his recommendation the master was given a grant of rupees 12.

Chapter VIII–Miscellaneous.

67. During the year no wild animals and venomous snakes were destroyed and consequently no money was spent in rewards.

68. The State has no telegraph office.

69. There is a Government Post office at Savanur under the supervision of the Superintendent of Post offices Kanara Division.

70. The condition of the State record is good.

71. There is no printing press in the State.

72. During the year there was one death amongst the Sirdars of the State viz:– that of the Nawab Abdul Tabrezkhan Diler Jang Bahadur, a first class Sirdar in black ink.

I have the honor to be,

Sir,

Your most obedient servant

(*Signed*) Gurunath Malhar,

Diwan of Savanur.

Submitted through the First Assistant Collector and Assistant Political Agent Dharwar.

(*Signed*) Gurunath Malhar,

Diwan of Savanur.

No. 1095 of 1893.

Report forwarded with compliments to the Political Agent, Savanur.

1. Chapter I–Calls for no remark.

2. Chapter II–I fail to understand why the Diwan should have included 66 acres 27 guntas of *uncultivable* land in the cultivable area for the year 1892–93. The cultivable area remains practically the same as in 1891–92, and the waste also.

   The cash–balance of the estate of Abdul Hakimkhan has increased by nearly Rs. 1000, the invested amount remaining stationary.

   The cash–balance of the other estate is nearly Rs. 1400 less than last year, but on the other hand Rs 3000 more have been invested in Government paper.

3. Chapter III–There is a notable decrease in the number of offences reported-83 as against 118 last year; but the detection has fallen off, the percentages being 55.3 in 1891-92, and 41.1 in 1892-93, while those of conviction are 78.5 and 70. Serious crime is not rife in Savanur, and I have not had a single case to dispose of in my capacity of Assistant Sessions Judge.
